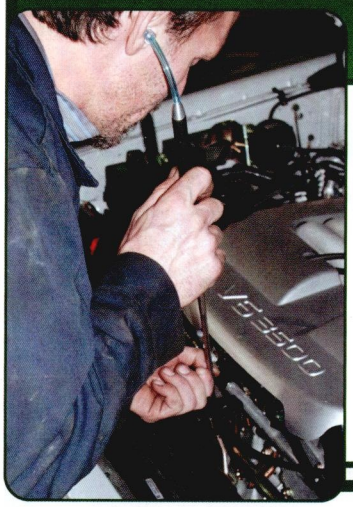
NEW stethoscope locates the source of engine noise quickly

CARICA™
Extraordinary Innovations.
A Ken-Tool® Company



17200 (STETH01) Mechanic's Telescoping Stethoscope

No longer a need for a wooden handled screwdriver to listen for engine noise!

The stethoscope helps identify piston knock, water pump and alternator bearing failure, worn gears, damaged gaskets, and faulty valves.

- Bell-shaped aluminum sound chamber with probe produces a more natural sound than plastic chambers
- Probe reverses to fit inside chamber for safe, compact storage
- Stainless steel shaft
- Flexible tubing to ear piece aids positioning
- Rigid shaft extends, keeping hands away from heat and moving parts
- Soft, comfortable ear piece is replaceable
- Extends to an overall length of 36-1/2"

NEW professional wheel and tire tools

Ken-Tool®
Reshaping the way tires are changed™

MADE IN U.S.A.

31810 Aluminum Wheel Protector

Save expensive rims from damage during tire changing.
The new leather wheel protector will help prevent rim damage which can occur during the manual tire changing process.

- Prevents tire tools from marring or scratching aluminum or steel rims when using Ken-Tool's manual tire changing tools
- Durable leather protector fits on the rim and protects inside of the rim well
- Use with an assortment of tire tools including: T45A® - style tire irons, Serpent™, tire spoons, other Ken-Tool tire changing tools
- When one end wears out, flip it over and use the opposite end
- Great for roadside service or in the shop
- It's needed by every tire changer

Patent Pending

36007 (T101A) Wide Base Tire Inflation Cage

Our new Ken-Tool wide base portable tire cage is designed for large tires and can be used for standard applications.

- Especially designed for wide base tires, this portable inflation cage will hold super singles, and super wide radial tires
- Mandatory for any shop working with tubeless and multi-piece rims
- Made from heavy-gauge steel tubing welded to a steel base
- Guards against blown lock rings and rims
- Designed to meet OSHA regulation 29-CFR Part 1910.177 requirements for medium, heavy-duty truck, OTR, tractor, and super singles
- Ken-Tool offers a size and design for all your needs
- Fits comparable tires up to: 445/50R 22.5
- Inside dimensions: Height: 43-1/2", Width: 20-1/2"
- Weight: 72 lbs.
- *Read safety label on cage*

NEW socket sets give you the versatility you need

30110 3 Pc. Thinwall Flip Socket Set - 1/2" Drive

- One end is a standard 6-point socket for everyday use
- Flip socket over and you have a 6-point socket of larger size

Socket sizes:
19mm - 21mm socket
3/4" - 13/16" socket
3" extension, 1/2" drive

30111 6 Pc. Double-Duty Flip Socket Set - 1/2" Drive

- One end is a standard 6-point socket for everyday use
- Flip socket over and you have a 6-fluted twist socket for removing damaged or rounded wheel lugs

Socket sizes:
17mm socket
13/16" socket
19mm, 3/4" socket
7/8" socket
21mm socket
3" extension

30112 6 Pc. Thick and Thin Flip Socket Set - 1/2" Drive

- For those ever changing aftermarket and manufacturers' wheels
- One end is a standard 6-point socket for everyday use
- Flip socket over and you have a thinwall socket of the same size for wheels with minimal clearance

Socket sizes:
17mm socket
13/16" socket
19mm, 3/4" socket
7/8" socket
21mm socket
3" extension

30113 6 Pc. Deep Thinwall Impact Socket Set - 1/2" Drive

- For the difficult aftermarket and manufacturers' wheels

Socket sizes:
17mm socket
13/16" socket
19mm, 3/4" socket
7/8" socket
21mm socket
3" extension

30114 5 Pc. Double-Duty Oil Drain Plug Removal Flip Socket Set - 3/8" Drive

- One end is a standard 6-point socket for everyday use
- Flip socket over and you have a twist socket damaged oil drain plug remover of the same size

Socket sizes:
14mm socket
17mm socket
15mm socket
19mm, 3/4" socket
16mm, 5/8" socket

30115 3 Pc. Lug and Lock Flip Socket Set - 1/2" Drive

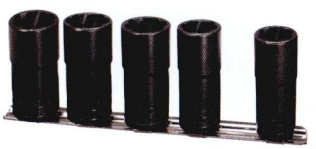
- One end is a standard 6-fluted twist socket for removing damaged wheel lugs
- Flip socket over and you have a 12-fluted twist socket for removing wheel locks

Socket sizes:
19mm, 3/4" socket
7/8" socket
3" extension

30116 5 Pc. Deep Twist Socket Set - 1/2" Drive

- Easily removes rounded, damaged, or corroded nuts, bolts, pipe nipples and studs
- Convenient storage/organizer bar

Socket sizes:
19mm, 3/4" socket
15/16" socket
13/16" socket
1" socket
7/8" socket



30175 4 Pc. Torque Stick Set for SUV's - 1/2" Drive

- Most popular sizes for largest growing market
- For domestic and foreign SUV's
- Tighten lug nuts to factory specifications
- Color and letter coded for quick size and torque reference

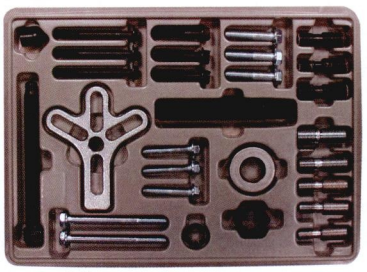
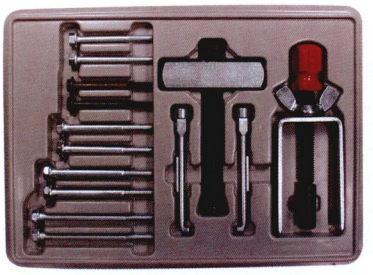
1042 Retainer Spring Tool
1044 Brake Shoe Retaining Spring Tool
1046 Brake Spring Removal Tool
1047 Brake Spring Installing Tool

7600 Harmonic Balancer Puller/ Installer Set



- One set contains all the components necessary to remove and install harmonic balancers
- Extra long bolt is included, no collar or spacer is necessary
- Complete assortment of adapters and bolts for SAE and Metric applications
- Ball-bearing type thrust bearing instead of one-piece thrust bushing, makes for easier installation

7602 Universal Steering Wheel Puller/ Installer Set



- Complete set pulls most steering wheels
- Compresses, removes, and installs the steering wheel lock plate
- Special bolt design allows technician to work on different car models without changing the tool assembly
- Changes from SAE to Metric without changing the threaded stem
- No wrench or screwdriver is necessary to attach to steering column or compress the plate
- Extra long bolt is included, no collar or spacer is necessary
- Fits older and newer style cars • Includes GM legs

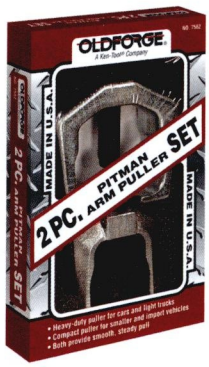
NEW sets make the professional's job easier

OLDFORGE® A Ken-Tool® Company

MADE IN U.S.A.

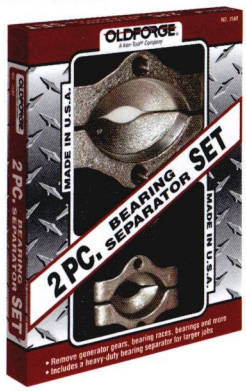
7562 2 Pc. Pitman Arm Puller Set

- Comes in the two most popular sizes
- These pitman arm pullers provide a smooth steady pull
- Drop-forged and heat-treated to provide extra strength and durability
- Heavy-duty puller is designed for cars and light trucks
- Compact puller fits smaller and import vehicles
- Compact storage package will fit in the drawer of your tool box



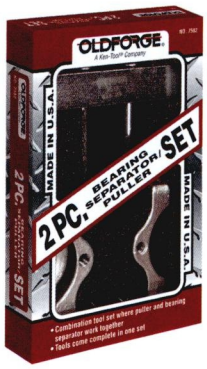
7580 Bearing Separator Set

- Remove generator gears, bearing races, and any other component too close to allow jaws to be placed behind it
- The bearing separators have "knife-like" edges that are flat on one side for easy placement behind components
- Smaller separator has threaded holes that are 3/8"-16 and capacity is 0" - 2-1/4"
- Larger separator has threaded holes that are 5/8"-18 and capacity is 0" - 4-1/4"
- They are to be used with gear pullers
- Compact storage package will fit in the drawer of your tool box



7582 Bearing Separator/Puller Set

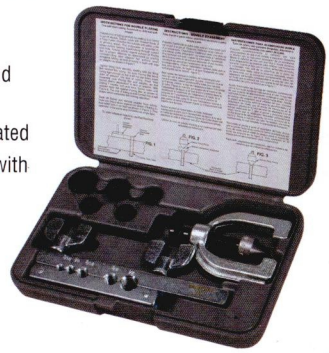
- Combination tool set where puller and bearing separator work together
- Tools to be used together to remove generator gears, bearing races, and any other component too close to allow jaws to be placed behind it
- Puller is 1" sturdy square and 4-3/4" long with side bolts that are 3/8"-16
- Separator has threaded holes that are 3/8"-16 and capacity is 0" - 2-1/4"
- Gear puller also pulls timing gears and other parts that have tapped holes
- Compact storage package will fit in the drawer of your tool box



7209 37 Degree SAE Double Flaring Tool

Used mostly for industrial applications. The flaring tool is built to withstand the pressure necessary to double flare soft steel, although it can also produce a single flare.

- High grade alloy steel swivel is heat-treated, precision ground and plated to reduce friction
- Yoke is drop-forged and heat-treated
- Each adapter is clearly stamped with the size for easy identification
- Includes instructions and is packed in an oil and grease resistant box
- Flaring tool adapter sizes: 3/16", 1/4", 5/16", 3/8", 1/2"



1987 6" Pneumatic Hammer

For hammering operations such as u-joints, ball joints and body forming work.

- Longer length to get in to hard-to-reach areas
- Length is 6" • Stock: 1/2"

7323 3 Pc. Long Pneumatic Tool Set

Get into those hard-to-reach areas, where standard size pneumatic tools cannot.
